

I oppose loosening the rules designed to promote and protect diversity of media ownership. These rules were adopted to ensure that the public would receive a diverse range of viewpoints from the media, and not simply the opinions of a handful of media conglomerates. The cable ownership

cap is a crucial element of our democratic media, and it should not be weakened.

Television and Radio were created as a democratic way of communication. The FCC has played an instrumental role in privatizing them and taking the power away from people everywhere to communicate. Please change this trend of policies and make help to make it a protected right for non-corporate-funded people everywhere to have the fair opportunity to communicate their own ideas.
